ODD FELLOWS GIVE BANQUET

Ukiah Lodge Number 174, I O O F, celebrated the opening of their new banquet room Tuesday night with a banquet, being assisted by the members of Cornelia Rebekah lodge. The Rebekahs had prepared a fine program for the occasion which was greatly enjoyed by those present. The feast was one to delight the heart of an epicure. There were oysters and turkeys and salads and cakes with ice cream galore and all the other things which go to make up a first class spread. Everyone voted the evening a great success.

The new banbuet room is one of the finest in the state and is of ample proportions to accommodate several score. In addition there is a well appointed kitchen well stocked with dishes and a range with hot and cold water, large sinks and drain boards and plenty of shelving. This addition to the hall has cost the Odd Fellows in the neighborhood of $7000. The lodge room has also been renovated and presents a very pleasing appearance. The stores occupied by Meyers & Banker and Lucas Bros have been remodeled and are now among the finest stores in town.

Since their establishment in this city years ago the Odd Fellows have always been progressive and despite the large amounts paid to sick and needy brothers they have always been able to accumulate money for a rainy day. The start made in the early days by the far sighted brethern has protected the lodge and now when the time has come that a great many of the members are old men and the heavy drains on the treasury wou'd have bankrtpted most orders they are the wealthiest lodge in this city.

VOTE BONDS TO EXTEND ROAD

The Southern Pacific and Santa Fe, as joint stockholders of the Northwestern Pacific railroad, authorized Monday the issuance or bonds on a $35,000,000 blanket mortgage at 4½ per cent. Those present at the meeting were President A F Payson, W A Bissel, Edward Chambers and H D Pillsbury, all of Santa Fe, and E E Calvin, William Hood, P F Dunne, C W Durbrow and J E Foulds, Southern Pacific representatives on the Northwestern Pacific board.

Immediately enough of these bonds are to be issued to retire the outstanding bonds of the several subordinate companies composing the Northwestern Pacific, such as the Sausalito and Donahue lines and the San Francisco Northwestern. The old bonds to be retired bear a higher rate of interest than the new ones.

The second issue of bonds is for the purpose of carrying out the plans of the combination of the Southern Pacific and the Santa Fe for the completion of the line from San Francisco to Eureka. The line of the California Northwestern from Tiburon to Willits will be improved for the heavier traffic which will be handled by the through line and active construction work will be commenced on the gap between Willits and the southern terminal of the line from Eureka which was controlled by the Santa Fe previous to the combination of the two roads in the joint enterprise of connecting Humboldt bay with San Francisco by a through rail line.

The survey on this new part of the line has completed and the new issue of bonds will be used to furnish the funds for the construction of the line, which runs through a rugged country. A considerable amount of lumbering is being done north of Willits and it is the purpose of the road to build branches into some of the timber belts which are at present inaccessible. The overland trip to Eureka, which at present takes two days and two nights will be shortened to less than one day, and the rich dairy and fruit country around Eureka will be brought that much nearer to the San Francisco markets.

This issue of bonds will make the total bonded indebtedness of the new corporation $70,000,000. The control in the board of directors alternates annually between the Soutnern Pacific and the Santa Fe.

Its First Graduate

The Point Arena Union high school closes its third year next Friday. There will be one graduate, Percy Brandt having taken the four year course in three years, and he is now prepared to take the entrance examination to any university in the State with the full assurance that he would succeed with flying colors. Of course, when the school graduates a class that would justify professors of the State University to visit the school and examine its work, our high school will be put on the accredited list and graduates will not be required to pass an entrance examination before entering a university. Mr Brandt intends to enter the Occidental College, and we bespeak for him an honored place in the field of letters, says the Record.

Another Saw Mill

EXPOSITION NOW OPEN TO PUBLIC

JAMESTOWN EXPOSITION FORMALLY OPENED TO THE WORLD BY PRESIDENT ROOSEVELT.

One of the Most Notable Gatherings That Has Ever Been Seen in the United States.

Jamestown, Va., April 27.—The ceremonies which present the Jamestown Tercentennial Exposition to the world were performed at noon yesterday with all the dignity and splendor befitting the occasion. Thousands of men, women and children crowded about the speakers' stand on Lee's parade where, in the presence of a most distinguished assemblage, President Roosevelt spoke the words of dedication and at the same time pressed a gold button that started the machinery of the exposition in motion.

Simultaneously the thousands of flags and banners on the beautiful buildings were thrown to the wind and a deafening salute boomed forth from the scores of warships of the United States and foreign powers that dotted the historic waters of Hampton Roads.

The day was perfect. The sky was cloudless and there was just enough breeze from the ocean to temper the heat of the sun. Glistening in Hampton Roads were fifty-two men of war of all nations, representing the finest sight ever witnessed in any port. Distinguished visitors from all parts of the United States and the world were present.

The chief feature of the day was a speech by President Roosevelt.

Norfolk, Va., April 27.—No occasion in the United States except the inauguration of a President has attracted a larger representation of prominent Americans and distinguished foreigners than gathered at the exposition yesterday.

A large proportion of official Washington was included in the special parties which came down the Potomac as guests of either the Federal Government or the exposition management. In addition to the President the list included diplomatic officials of thirty-seven nations, members of the Senate and House of Representatives.

The members of the diplomatic corps made the trip upon the steamer Newport News. The steamer anchored just outside the line of the naval review.

The foreign diplomats present, nearly all of whom were accompanied by their wives and by members of the embassy, represented nearly every national of the world.

Secretary Cortelyou, who is chairman of the Tercentennial Commission, and Secretaries Garfield and Strauss were among those who came down with the diplomatic party; also many officers of the Government and members of their families.

The Congressional party arrived upon the steamer Jamestown and took up headquarters at Old Point Comfort. After witnessing the naval review from the deck of the lighthouse tender Iris the committee from the Senate and House joined the other distinguished guests during the opening program. The Governors of several States, with parties, occupied boxes in the grandstand during the opening ceremonies and military review.

Roosevelt as a Peacemaker.

Washington, April 27.—To President Roosevelt has been given the credit in bringing about amity between Nicaragua and Salvador as shown by the following cablegram to him from President Zelaya, of Nicaragua, received last night:

"Peace signed day before yesterday, Amapala. I thank your excellency for your great work toward accomplishing that happy result."

Two Hotels Burn at Exposition.

Norfolk, Va., April 27.—Fire resulting from a leaky gasoline lamp destroyed several frame buildings at Pine Beach, just outside of the exposition grounds, early yesterday. Among the burned buildings were three two-story hotels. These were filled with people, but the guests had arisen early and there were no fatalities or accidents.

BANDIT KILLED BY A POSSE

SLAYER OF MARCOVICH KILLED BY SHERIFF'S POSSE NEAR THE TOWN OF WILLOWS.

Surrounded, the Man Answers Shot for Shot With the Officers, and Then Kills Himself.

Willows, Cal., April 30.—A desperate battle between armed officers and a desperado, lasting from 8 o'clock until 11 occurred last night, covering a distance of eight miles. The fight was started at German town when an officer requested an unknown man to move on.

The desperado replied with four shots and started towards Willows.

Constable Rehz pursued him and many shots were exchanged.

Officers from Willows were called on for assistance, and met the pursuers and pursued three miles north of Willows at Liman Switch. The desperado refused to surrender and opened fire. The officers ran out of ammunition, and one of them returned to Willows for more.

The desperado kept on toward the county seat. At the county hospital the officers received a supply of ammunition and the battle again raged. The desperado made a final stand at the edge of town and said he would not be taken alive.

A shot brought him to his knees and he shot himself in the breast, saying: "I have shot myself, but can't die."

He then shot himself through the head. His body was riddled with shot. He was armed with two Colt's revolvers. A slungshot was in one of his pockets and some ammunition and $1.50 in his purse.

The man was about 35 years of age, five feet seven inches tall, with blue eyes and light hair, fair complexion and a crooked nose. He was unknown here.

It is suspected that the dead man may have been Frank Smith, who murdered John Marcovich, a restaurant keeper at Oakland on April 19.

PEARY LACKS $60,000.

May Have to Abandon Projected Expedition Because of Lack of Money

New York, April 30.—The lack of about $60,000 may mean the abandonment of the expedition to the North Pole which Commander R. E. Peary has planned for this summer. The explorer, who has earned the distinction of having reached "The Farthest North," is deeply downcast at the possibility that he may not be able to try again.

Peary wants to start from New York the latter part of June. His ship, the Roosevelt, which proved its high worth on the last expedition, is now being prepared for the next attack upon the northern ice fields. The greater part of the $40,000 already subscribed will be spent in repairing the boat and about $60,000 will be needed for general expenses.

Roosevelt Called a Small Potato.

Chicago, Ill., April 25.—President Roosevelt's statement reiterating his charge that Haywood and Moyer, the Western Federation of Miners officials are "undesirable citizens," brought forth a storm of criticism last night at a meeting of the Haywood-Moyer defense conference.

The President was designated as a small potato as a man, but as President of the United States his utterances should be considered. He was referred to as "His Majesty," and compared with Kaiser William as a war lord.

A committee was appointed to frame a reply to President Roosevelt's letter.

Sneezed Himself to Death.

Meeteetse, Wyo., April 29—Henry Goodmiller, a Wyoming sheep herder, began to sneeze several days ago, and he sneezed almost uninterruptedly until he fell over dead. The bursting of a blood vessel, caused by the violent attack of sneezing, was the immediate and direct cause of the man's death. The sneezing attack which resulted in his death came on a few minutes after he arose from his bed in the morning, and he could not check it. He sneezed constantly and very violently for ten or fifteen minutes, suddenly he fell over and expired.

THE HUNTER'S LICENSE LAW

The law regarding hunter's licenses has excited considerable interest in this county and a number of inquiries have been received at this office regarding it. Assemblyman Held has kindly furnished a copy of the law from his files which is published in full below. From section eleven of the law it seems that a man has a right to hunt on his own lands without a license.

SECTION 1. Except as provided in section 11 hereof, every person in the State of California, who hunts, pursues or kills any of the wild birds or animals, protected by the laws of this state, without first procuring a license therefor, as provided in this act, is guilty of a misdemeanor.

SEC. 2. Licenses granting the privilege to hunt, pursue, or kill wild birds or animals, during the open season as fixed by law, shall be issued and delivered upon application by the county clerk of any of the counties of this state, or by the state board of fish commissioners, which license shall be of aluminum or other suitable metal, circular in form, approximately two inches in diameter, and have stamped thereon the words: "Hunting License No.———,State of California, expires June 30, 190—," with the registration number, and appropriate year stamped therein, which said licenses shall be prepared and furnished to the county clerk, and for their own disposition, by the ssate board of fish commissioners, which board shall take receipt therefor by number and quantity, from the several county clerks, and the county clerk shall be responsible therefor, and shall account for the same to the controller of state every three months after receipt thereof.

SEC. 3. The licenses herein provided for shall be issued as follows:

1st. To any citizen of the United States who is a bona fide resident of the State of California, upon the payment of one dollar.

2nd. To any citizen of the United States, not a bona fide resident of the State of California, upon the payment of ten dollars.

3rd. To any person not a citizen of the United States, upon the payment of twenty-five dollars.

SEC 4. Every person applying for and procuring a license as herein provided shall give to the county clerk or state board of fish commissioners, his name and resident address, which information shall be by the clerk or board entered in a town book kept for that purpose, and provided by said state board of fish commissioners, together with a statement of the date of issuance and number of the license issued to such person, and a description of such person, by age height, race and color of the eyes and hair.

All licenses issued and herein provided shall be valid, and shall authorize the person to whom issued, to hunt, pursue and kill game birds and animals during the open season fixed therefor by law, on and from the first day of July until the date of expiration stamped thereon, but no license shall continue in force for a period longer than one year.

SEC. 6. All moneys collected for licenses as provided herein, and all fines collected for violation of the provisions hereof, shall be paid into the state treasury and credited to the game preservation fund.

SEC. 7. Not more than one license shall be issued to any one person for the same fiscal year except upon an affidavit by the applicant that the one issued has been lost or destroyed, and no license issued as hereprovided shall be transferrable or used by any other person than the one to whom it was issued.

SEC 8. Every person having a license as provided herein, who while hunting or killing game, refuses to exhibit such license upon demand of any officer authorized to enforce the game laws of the state, shall be guilty of a misdmeanor; and every person lawfully having such license, who transfers or disposes of the same to another person to be used as a hunting license, shall forfeit the same.

SEC. 9. Every person violating any of the provisions of this act, shall, upon conviction thereof be punished by a fine of not less than ten, nor more than one hundred dollars, or by imprisonment in the county jail for a term of not less than ten, nor more than one hundred days, or by both such fine and imprisonment.

SEC. 10. There is hereby appropriated out of any moneys in the state treasury, not otherwise appropriated, the sum of five hundred dollars for the purpose of carrying out the provisions of this act, to be used by the state board of fish commissioners for the printing and binding of suitable books and blanks, required herein, and for the prchase of the metal licenses, described herein. The state controller is hereby directed to draw his warrant for said amount in favor of said state board of fish commissioners, at such times and in such amounts as may by approved by the state board of examiners, and the treasurer is directed to pay the same.

SEC. 11. The provisions of this act shall not apply to any person who on his own lands hunts, pursues or kills any of the wild birds or animals protected by the laws of this state.
